

Learning Planet® Lite

Learning Planet® Lite – lightweight, easy to use and cost effective delivery of e-learning

Learning Planet® Lite is a robust, compact and simple to use Learning Management system incorporating the basic, but essential, features of an LMS-think of it as a scaled-down version of Learning Planet® Enterprise without the bells and whistles of a full blown enterprise LMS. Learning Planet® Lite works well for organizations that are taking first steps towards e-learning enablement with the added advantage of making e-learning accessible from iOS and Android mobile devices.

Key features of Learning Planet® Lite are as follows:

- » Best suited for organizations interested in delivering e-learning only – example compliance training for employees
- » Keep it Simple – hassle free hosting and administration of E-learning
- » Deliver e-learning to individuals and learner groups
- » Mobile Delivery – access e-learning on iOS and Android devices
- » Standards Compliant – SCORM
- » Integration – SharePoint, SAP HRIS, Oracle HRIS, Active Directory, Outlook, Lotus Notes
