

Geared **for** Success

Our workflow simulations help
you make superheroes of your
workers.

TATA INTERACTIVE SYSTEMS

Tata Interactive System's Workfloor Simulations are the best way to let your workflow managers get up to speed.

What's in it for you?

Reduce time to competence for new hires

Challenge new and experienced managers with disruptions and make them shockproof

What can you leverage?

Benefit from TIS' experience of creating industry-leading learning simulations!

Make use of our custom-development model and embed your processes and your operational models

What's in the program?

Comprehensive workflow model with simple to complex scenarios

Multiple customizable decision-making scenarios, algorithmically targeted to learners

Realistic outcomes with detailed reports and analytic feedback
